News Brief

CALLING ALL BARGAIN HUNTERS...
We still have some USED (non-ethernet) 7526-100, 7526-150 and 7526-200 Data Collection Terminals (DCTs) left. Here's your chance to get a few spares at our bargain price of _$495.00_ each, including a (used/110v) power supply, while they last. These have been cleaned up, fully tested and come with our 90 day warranty.

REMINDER - If you need some help with DC Connect you can call our Installation 〰️*HOTLINE*〰️ (561-338-3264) and ask for Mike. Many problems can be resolved with a short (some shorter than others ☺) phone call. Try us - if WE can't help, we can usually locate someone that can.

EDUCATION

Mike is still working on a class for DC Connect - Target is for June.
Let us know if you are interested, or if you have someone at your company that could benefit from this class. We want to make sure we have a large enough classroom and enough equipment available in order for each student to get the maximum benefit from the class.

Remember: We offer *Repair Service* and *Maintenance Agreements* for all three families of IBM DCTs - the ELF(7494/7525), 7526 and 7527.
Thanks for your business!

Ron, Jack, Tottie & Mike
