NEW 7526 Terminals with Ethernet

TRUE or FALSE - Did you know that you can buy Newly Manufactured 7526 Data Collection Terminals and Ethernet Cards ?

If you answered TRUE – You're Right !

In April of 2000, we bought from IBM the Intellectual Property Rights and IBM's inventory of parts for the IBM 7526 model MTC and we have been building these units, sans logo, ever since.

WE ARE the sole provider of **New** 7526 Data Collection Terminals and **New** Ethernet Cards. Don't be fooled into believing that they are no longer available. We continue to sell **NEW** and repair **OLD** here at R&R Services and Repairs, Inc. !!

After all, we want to help you **protect your data collection investment and keep you satisfied....**

Remember: We offer Repair Service and Maintenance Agreements for all three families of IBM DCTs - the ELF(7494/7525), 7526 and 7527.

Thanks for your business!

Ron, Jack, Tottie & Mike
