## News Brief

[www.data-collection.com](http://www.data-collection.com)

### *Replace your Wand with a Scanner!*

**Yes, you can use a bar-code scanner where your current bar-code wand is installed.** - We have refurbished scanners that Plug and Play with the 7525, 7526 and 7527 Data Collection terminals. These scanners work in wand emulation mode, can read many different types of bar-codes and read faster than a wand. We have a fresh, fully tested supply in stock at our everyday low price of \$95.00. Hurry they won't last long.

Call Ron to discuss a free 30 day trial for your application.

### *Success Story!*

**Wanting to upgrade your OS/2 or DOS Data Collection Server?** - A number of our customers have migrated to WINDOWS 2000 this year and **saved their existing terminals and network investment** by using the IBM DCCConnect and some creative bridge programs. Transaction flow was uninterrupted to the mainframe, and these customers can now use current skill sets to maintain the system. This illustrates compatibility and how proper planning can make you successful! Keep up the good work!!

If you are not sure how to **get started, need some prices**, or just want to **check out an idea** with us, give us a call. We want to help you "Protect your Investment" and be business ready for the future.

Remember: We offer **Repair Service** and **Maintenance Agreements** for all three families of IBM DCTs - the ELF(7494/7525), 7526 and 7527.

*Thanks for your business!*

Ron, Jack, Tottie & Mike
