Your source for **NEW** 7526 Terminals

October 5, 2004

## **News Brief**

[Sales@data-collection.com](mailto:Sales@data-collection.com)

### ***Hurricane Update:***

After dealing with Hurricane Francis last month, which knocked out the power and phone for nine days, then dealing with Hurricane Jeanne which came ashore a little more than a week later knocking out power and phones a few more days, we are getting used to the wind, the rain and working in the dark. We have been lucky though, everyone from R & R came through both storms fine and suffered only minor damage to our homes and office. We are finally catching up with the backlog of E-mails and orders. We apologize for any inconvenience this delay may have caused and thanks to all of you who sent letters of concern.

***A Big Congratulations to Tottie and Ken who celebrated the birth of their new Granddaughter on September 30th. Aimee Michelle 7 lbs. 13 oz and 19 3/4 inches long. Everyone is healthy and is doing great!***

### ***It's Budget Time...***

The last quarter of the year is usually the time to start thinking about next year's budget. With this in mind, we want to remind everyone that R&R continues to offer Maintenance Agreements for 7525s, 7526s, & 7527s. These Maintenance Agreements are available for customers with 10 or more units and covers all repairs to the unit. So, if you are concerned about controlling your costs give R&R a call today and let us quote you a price for your Data Collection Terminal Maintenance Agreement.

***Thanks for your business!***
